

To FCC:

I want you to know that K-LOVE serves me as a resident of my local communitiy here in New Hartford,NY and I believe the service K-LOVE offers our community is not only valuable but much needed. Because of K-LOVE, we are able to hear not only music but other programs that are family friendly and this is very important to us as Christians that we can even allow opur daughter to hear what is shared over the air waves. Also, we have K-LOVE in our community because people here care about what we hear and we support this station completely. We do not want to see K-LOVE replaced by and LPFM broadcaster providing other programing. We need and enjoy K-LOVE very much and pray you will not allow LPFM replace these things that we value for our family.

Thank you,

Norma J. Nashold
